

*Hotel Aurora **** - Miskolctapolca*

Dear Guests,

We would like to inform you that we are running two and a half year now in a successful way. Because of that, our owner decided that we have to increase our living space because we do not want to decline any reservation because of the lack of the rooms.

From the 29th of March, we will start our construction. We try to solve the construction with the smallest noise because of we can keep the maximum calm of our guests. Around the construction territory, we separate it with a coloured wall which will not cause any problem for the view.

The new building will be built for the space of the actual parking place, but we offer another parking place to you next to the old one. During the construction time, you does not need to pay for the parking. Now, we would like to introduce the new building what you can see below.

Thank you very much for your faithfulness, and we hope, you will be satisfied with us in the future as before.

Best regards,

Gergely Oravec
Hotel Manager
